0 1 2 3 4 Kilometers
0 1 2 3 4 Miles
Map Design: Trevor Kludt

Note: Most unpaved roads require high clearance or 4-wheel drive. Roads may be impassable during inclement weather. Check locally for current road conditions.

Warning: Do not use this map for navigation. Shoreline dangers are too numerous to mark and can appear quickly after a storm or change in the weather. Flash flooding can occur on roads and in canyons in drainage areas. Always use caution!
