Patrick Fannon, Co-Owner

After Patrick and his wife, Liz, moved from San Francisco to raise their family in Park City, they acquired Skis on the Run in 2002. A former banker and lover of spreadsheets, Patrick's business savvy has been a key driver in the company's success. Intentionally in tune to the guest experience, Patrick designed a proprietary software for the company's unique booking platform, which ensures faster delivery of premium products at an incredible value – in just three clicks. Beyond the bookings, Patrick fosters a company culture that respects its mountain environment. In addition to responsible recycling methods, sister company, Switchback Sports, keeps quality gear and apparel in rotation by renting and selling gently used sports equipment for guests of all ages and abilities to enjoy.

SKIS ON THE RUN

"We want to give guests peace of mind that they can step off the plane as they are, arrive at their accommodations, and have every piece of equipment, clothing, or accessory needed for the mountain already waiting for them"
- Patrick Fannon

Ski Outfitting from Head to Toe

Our partnership with our sister company, Switchback Sports, gives guests access to an entire digital ski shop of high-quality, affordable gear, clothing, and accessories to rent or purchase. Guests choose from a full inventory of new gear to be delivered right along with their rentals.
