

## Ice Amounts for Tonight into Thursday

## What To Expect

Low pressure brings mixed precipitation tonight into Thursday.

- ✓ Snow overspreads the area this evening, turning to mixed precip across the interior overnight
- ✓ Ice accretion across the interior will pose an isolated power outage threat
- ✓ Slick travel likely across the mountains and north for the Thursday morning commute
- ✓ Winter Weather Advisories have been issued for interior [ME](#) and [NH](#)
- ✓ Mix to rain expected along the coastline
- ✓ Precipitation continues into Thursday, changing to rain from SW to NE through the morning

High pressure returns for the end of the week, and then another system is likely this weekend.
