

Snowfall Tonight through Thursday

What To Expect

Low pressure tonight through Thurs

- ✓ Precipitation will start as snow everywhere bringing slick travel into the Thursday morning commute
- ✓ Snow changes to a wintry mix SW to NE Thursday morning and possibly rain south of the mountains Thursday afternoon
- ✓ A Winter Weather Advisory has been issued for most locations

Another low pressure system impacts the Northeast Saturday and Sunday

- ✓ Precipitation likely starts as snow with accumulating snow late Saturday and Saturday night
- ✓ There may be a mix/rain line that moves north through the area Sunday
