TRAX 'PERGO'

Aluminium Pergo Modular Framed Structure

MULTIPLE ALUMINIUM COUPLING JOINTS & BASESS

The Trax 'Pergo' model features a multitude of bolt together Aluminium Joiner connectors to choose the best frame configuration for site conditions. The lightweight but robust Aluminium Posts, Beams & Running Tracks, allows easy bolt together installation.

The Aluminium components can be powder coated to a multitude of colours to fit the surrounding decor. Side Blinds can also be added if required.

VISTAWEAWE 95 SUN PROTECTION MESH

The chosen fabric for the Shaderunner® is Vistaweave

Wide range of durable fabrics from 95% Polyester Mesh to Waterproof PVC available with a large selection of colours.

Most Shaderunner® systems are manufactured from a Polyester Mesh Fabric, a robust woven fabric, with a 10 year UV Warranty. Vistaweave 95 has been a favourite recently as it offers a wide colour range & providing up to 98% blockout.

*Note: There is a greater range of fabrics to choose from, please contact us for more information.

WATERPROOF PVC

Waterproof fabric option for the Shaderunner®

If you are looking for rain protection, then a Waterproof PVC fabric is a great option. In fact by using our chosen PVC fabric, you can create an affordable retractable fabric roof, with the Shaderunner® Trax.

*Note: There is a greater range of fabrics to choose from, please contact us for more information.

SELF STANDING 'PERGO' TIGHT ACCESS & DIFFICULT AREAS

Where access is tight and normal bored pier type footings will not be possible, or base fixings are required on decks, balconies or rooftops, then the self standing Aluminium Pergo frame structure is the ideal solution. Able to have various footing designs or fix to existing concrete or beams in some instances, this allows this structure to be installed when others may not be possible.

SINGLE SELF STANDING

SHADERUNNER TRAX 'PERGO' TYPICAL CONFIGURATIONS

As well as the self standing single 'Pergo' Structure, these can also be linked together to achieve unlimited widths. They can also be fixed to building structures, eliminating the need for the rear beam and posts.

CONVENIENT CLIMATE CONTROL

DURABLE FABRICS

The Shaderunner® is manufactured from a range of rigorously tested fabrics which are as durable as they are stylish, being designed to withstand high traffic applications and the demands of the harsh Australian climate with ease.

POLYESTER MESH
(10 Year Warranty)

90-95% UV block out for shade and glare reduction.

WATERPROOF PVC
(10 Year Warranty)

Translucent all-weather UV protection (system requires side fall for water runoff)

POWDERCOATED FRAMES

The Shaderunner Trax Pergo consists of Aluminium framework & components that can be powdercoated to the clients requirements. Subtle & neutral colours including the Colorbond steel colour range

DURALLOY™
SOLID COLOUR RANGE

ALPHATEC™
BRIGHT RANGE

FULLY RETRACTABLE

Controllable retractable shade enables the user to manipulate the amount of shading as required on demand.

SUMMER SHADING

During summer the Shaderunner® Trax can be fully extended, providing maximum shading, UV protection and thermal comfort.

UV PROTECTION

Using a range of rigorously tested commercial grade fabrics, the Shaderunner® provides dependable UV protection.

WINTER WARMTH

When folded back, winter sun and consequent solar gains can be maximised to make the most of the available light and thermal warmth.

DURABLE AND DEPENDABLE

The Shaderunner® is durable by design and will provide years of trouble free use. For peace of mind, this is backed up by the following warranties:

- ✓ 5 years on components & workmanship
- ✓ 5-10 years on fabrics
- ✓ 10 years on fabric stitching or welding
- ✓ 5 years on Somfy motors

*Conditions Apply

SMOOTH & SIMPLE OPERATION

Stainless Steel ball bearing runner wheels provide smooth operation.

Manually operated Systems feature an endless cord system to easily extend and retract the fabric, with the cord then secured and tied off at the horn cleat.

Remote RTS motorised operation is also available for the ultimate convenience if preferred. The Shaderunner is effortlessly extended at the touch of a button with the Somfy remote control.
